I am an over the road truck driver and I subscribe to XM radio. I depend of XM radio for giving me traffic and weather updates. This helps me to keep my truck moving. XM radio provides quality radio that I cannot get elsewhere. I pay for these services and I dont believe the national association of broadcasters has the right to dicate what I listen to. I urge the FCC to reject the NAB'S petition 04-160 and support XM'S ability to provide the kind of programming that i demand and deserve.
